

ORACLE

The unlimited engineering knowledge access and capture platform that delivers greater organizational performance and productivity.

Knowledge-on-Demand Network
Everything you need to know
Whenever and wherever you need it

ORACLE from Becht

Experience an exclusive, powerful suite that empowers your people, enables operational efficiency and brings an entire world of experts, information and direct accessibility to the answers and knowledge you need.
Whenever and wherever you need them.

Keep your entire technical team well informed and working at their peak of expertise and productivity with ORACLE from Becht. From instructive solutions from experienced SMEs to responsive solutions from experts, it's the most confident and productive way to solve your most pressing questions.

"We Solve Problems"

The unlimited engineering knowledge access and capture platform that delivers greater organizational performance and productivity.

Becht is there for you from day-one with support whenever the need arises. The ORACLE program includes:

- 1 An on-site launch event to introduce the power of ORACLE to your team
- 2 An implementation and training session ensuring maximum value from ORACLE's vast resources
- 3 Monthly activity statement and "problems solved" report
- 4 A yearly review and analysis session with the Becht ORACLE team
- 5 A dedicated "Evergreen" library of expert opinions curated specifically to your needs and circumstances
- 6 Easy-to-use, web-based connectivity to The Knowledge-on-Demand Network
- 7 Free Knowledge-on-Demand Network IT support for your engineering team
- 8 Easy-search FAQ library of topic-related subjects launching in 2020

ORACLE features The Knowledge-on-Demand Network

With the Knowledge-on-Demand Network from Becht, your company will experience the benefits of an in-house virtual Central Engineering Group. Accessible in a variety of media formats and available 24-7-365, it's the ideal resource to complement your existing internal capabilities.

Knowledge-on-Demand Network from Becht advantages:

- 1 A virtually inexhaustible library of information, best practices and answers to all your questions
- 2 Direct connection to SME consultants with extensive plant and industry code expertise
- 3 Data and information that provides you with clear, actionable and practical solutions
- 4 A single, on-demand resource to augment the on-site technical expertise and experience of your company
- 5 A single PO to increase efficiency and reduce activation energy for small projects
