CURRENT SITUATION

Until now, cigar aficionados have been unable to acquire the premium cigars they like/want in the many lifestyle venues they frequent.

Several factors have contributed to this:

- ▶ The absence of configurable display units that would attractively integrate into existing retail/customer environments
- ▶ Lack of a compact/scalable humidor system to protect product (cigar) freshness/integrity
- ▶ Absence of a system to monitor and maintain product inventory
- ▶ Lack of an automated ordering system to ensure product (cigar) availability

INTRODUCING...

TUBEAUX

The retail-oriented premium cigar display program that delivers exceptional margin potential.

ADVANTAGES & AVAILABLE OPPORTUNITIES

- ▶ Serves cigar smokers' unmet demands
- ▶ Exclusive turnkey, retail program available
- ▶ Automated ordering/fulfillment system
- ▶ Sales monitoring and reporting
- ▶ Variety of kiosks configured to specific venue

HEADING

Tubeaux® Introduces Innovative Retail-Oriented Premium Cigar Humidor/Kiosk Program

(Thibodaux, LA – May 2020) The Tubeaux Company is announcing the Tubeaux retail-oriented, humidor/kiosk premium cigar program developed through a strategic partnership with Cajun Cigar Czar LLC. With its patent pending technology, the Tubeaux system is designed to deliver exceptional margin potential and profitability.

The Tubeaux program is ideally suited for tobacco products wholesalers and distributors and supply chain providers with existing retail clients with solutions that can be tailored for a large number of retail locations, or just few; even for someone who just wants one for his “man cave.”

“Until now, cigar aficionados have been unable to acquire the premium cigars they want in the many lifestyle venues they frequent,” states Randall “Barton” Howard, founder and inventor of the Tubeaux solution. “The new Tubeaux humidor/kiosks are the perfect solution to satisfy that unmet demand.”

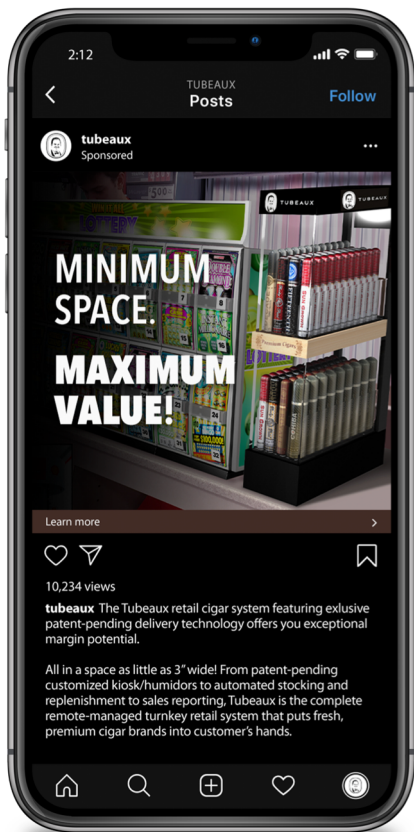

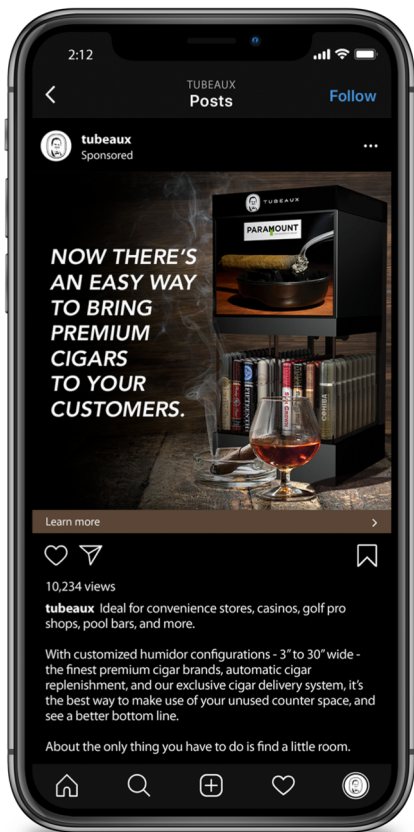

The remote-managed Tubeaux program offers remote-managed, turn-key solutions that include humidor/kiosks in a variety of sizes, premium UPC-coded cigars, real-time humidor monitoring for quality control, automated inventory tracking, and detailed sales reporting to identify purchasing trends and product mix. In addition, the program can be providing marketing support that features manufactured shelf cards, cigar ratings, “cigar of the month” based on manufacturer-driven promotions with customized signage highlighting special offers, and wine pairings and more.

The highly configurable program enables the units to be placed with premium cigars in locations like golf pro shops, hotel lobbies and pools, restaurants, stores, retail spaces, and many more. Tubeaux custom humidor/kiosk “pusher” technology can be configured to easily fit in retail counter openings from 18 inches to seven feet wide. Floor standing units are available up to five feet in height.

Customers can also order easy-to-assembly individual DIY units to meet their specific needs.

Tubeaux humidor/kiosks are available for stocking with premium cigar brands like Camacho, Macanudo, Partagas, Monte Cristo, Espinosa, Cohiba and many others.
